PUPIL DAILY TASKS

SEN PARENT ADVICE

Welcome To Our School

Welcome to our school Website. We hope you enjoy looking at our successful school and what it can offer your child through the delivery of a very creative curriculum. We strongly believe that children excel through being happy at school, being celebrated for their achievements in any area of the curriculum

Children Live What They Learn

We believe that the ethos of our school is illustrated by this extract from the following poem:

School Closure

New Learning Resource - Oak National Academy

The Oak National Academy is a Government backed learning platform. We will begin using the Maths and English lessons via their website for learning at home. We will continue to set an additional project and extended activities to complete at home.

VISIT THE OAK NATIONAL ACADEMY

Information and Updates

Pupil Tasks

Daily tasks will be uploaded by 9am each morning.

NEW: This week's project is [Down in the Jungle](#)

- [Reception Tasks](#)
- [Year 1 Tasks](#)
- [Year 2 Tasks](#)
- [Year 3 Tasks](#)
- [Year 4 Tasks](#)

New: Here are some fantastic 60 second PE challenges to try at home.

Updated: We have uploaded some ideas for parents of children with SEND needs. Please see some activity ideas [here](#)

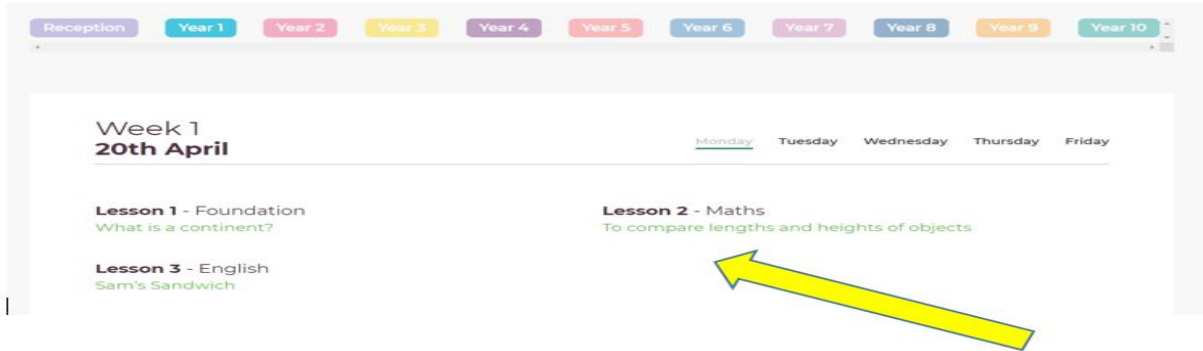

This will take you to the Oak Academy Website

The screenshot shows the 'Online Classroom' header with the Oak National Academy logo. Below the header, the 'Schedule' section is active, displaying 'This week is: Week 1'. A prompt says 'Choose your year group then find your relevant lesson'. A row of buttons for year groups is visible: Reception, Year 1, Year 2, Year 3, Year 4, Year 5, Year 6, Year 7, Year 8, Year 9, and Year 10. The 'Year 6' button is highlighted in blue.

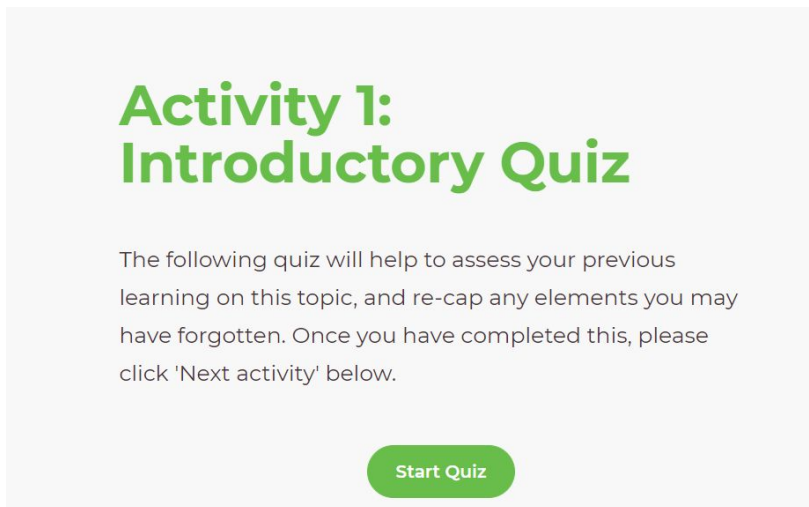

You then need to click on the relevant year group

Maths Example

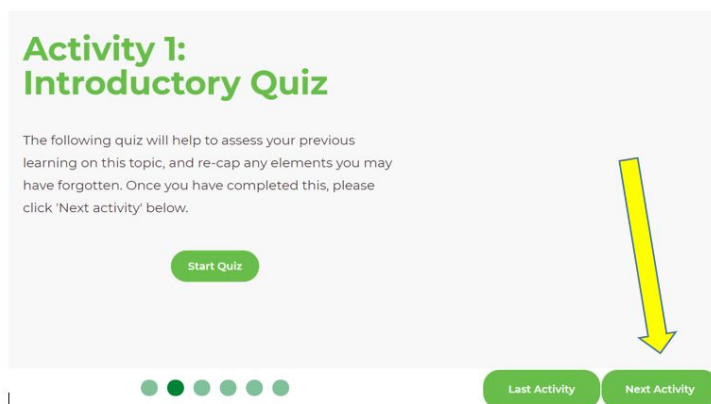

This is a Year 1 example and it has taken me to Monday. If you go in later in the week you can still click back to Monday and work through the lessons in order

For each maths lesson it starts with an introductory slide and then a multiple choice quiz:

After completing the quiz you select next activity:

For each maths section there is a video:

Activity 2: Video

When you are ready, press play on the video link opposite. This will require you to listen closely to what is being taught, and also for any instructions. Your teacher may ask you to pause the video to complete an activity. If this activity requires the Slides on the following page, simply pause the video and click 'Next activity' below. If the video does not require you to pause, watch it until the end. Then click 'Next activity' once it has finished.

Followed by an independent task (some are written and some are practical)

Main Activity

The slides opposite will take you through the main activity for the lesson. If you need to re-play the video to follow instructions, or refresh your memory, just click the minimised video in the top-right of the screen. Once you have finished all activities in the video and the slides, click 'Next activity' below.

Independent Task

Pause the video here

Task 1

- Find three objects that are taller than you
- Find three objects that are shorter than you

Task 2

- Order the objects from tallest to shortest
- Find out where you would go in the order from tallest to shortest.

Oak National Academy

Slide 1

Google Slides

It will then end with a quiz:

Activity 4 : Quiz

The quiz opposite is a great way for you to re-cap your knowledge from this lesson. Work through each question, and seek to understand what you may have found challenging. If you would like to re-cap any of the lesson, or repeat any exercise, click 'Previous activity' below until you reach that screen.

Start Quiz

If you then click back to schedule it will take you back to the day's lessons:

Lesson Complete

You've now completed today's lesson - well done! If you would like to complete other lessons from this topic, click 'Back to topic' below. If you would like to complete the next lesson in this series, click 'Next lesson' below.

[Back To Subject](#) [Back To Schedule](#) ←

English Example

The English lessons have a video with a shared text or story. Your child will be asked to pause the video and answer questions based on the text. They can do this on paper or in the exercise book we gave you. They will share the answers and give the children a chance to correct their answers (they may be reluctant to do this!)

Activity 2: Video

When you are ready, press play on the video link opposite. This will require you to listen closely to what is being taught, and also for any instructions. Your teacher may ask you to pause the video to complete an activity. If this activity requires the Slides on the following page, simply pause the video and click 'Next activity' below. If the video does not require you to pause, watch it until the end. Then click 'Next activity' once it has finished.

I hope this guide is helpful. Please do ask if you have any questions about how to use this online resource.
